Wagman Winterfest 2014 Cancelled

We regret to announce that “Wagman Winterfest”, which was scheduled to start with Solar observing at 4:00 pm on March 8, has been cancelled because of predicted rain showers. We will not be rescheduling the event this year. Our thanks to AAAP members who had been planning to help out at this star party, the first of the year.

Please join us for our next star parties, **April 4** and **April 5**, at both Wagman and Mingo Observatories. These star parties start at Sunset. Details will appear in the April issue of the Guide Star.
